

Product Data

Protective Coating for Surfaces Operating Under Immersion

Belzona® 5811 (Immersion Grade) is a two component solvent free system for the protection of metallic and non- metallic surfaces operating under immersion conditions in contact with aqueous solutions.

Belzona® 5811 (Immersion Grade) will:

- Provide long term protection
- Extend equipment life
- Cut downtime

Belzona® 5811 (Immersion Grade) is a brush or spray applied coating which provides outstanding protection from the effects of salt water, acid, alkalis, alcohol, hydrocarbon and the environment. This product can be applied to virtually any surface including cast iron, stainless steel, brass, copper, concrete, wood, fibreglass and aluminium.

Belzona® provides the solution to your repair and maintenance needs.

BELZONA
Repair • Protect • Improve

Belzona® 5811 (Immersion Grade) is:

Simple

- Easy to apply
- Can be brush or spray applied
- Two coat system, for a total of 20mil thickness to give maximum protection in the most arduous conditions

Safe

- Solvent free
- Cold temperature cure ensures no fire risk

Versatile

- Effective on steel and other metallic substrates
- Equally effective on concrete and brick
- Cures under cold and damp conditions

Effective

- Excellent chemical resistance to the following chemicals: ethanol 10%, sulphuric acid 10%, hydrochloric acid 20%, hydrobromic acid 10%, potassium hydroxide, ethyl acetate, methyl acetate, ethylene glycol, 20% ammonia solution, diethanolamine, hydrocarbons, sea water, water and crude oil.

Belzona 5811DW2 grade is available for applications requiring approval for potable water contact

Certified to
NSF/ANSI 61
