## Multi-Purpose, High Performance Anti-Seize Compound

Belzona® 8211 (HP Anti-Seize) is a high performance anti-seize treatment for the prevention of seizure and galling of mating components, subject to high temperatures, corrosion, chemicals and mechanical interlocking.

### Belzona® 8211 (HP Anti-Seize) will:

- Extend equipment life
- Provide long term protection
- Resist vibration, contraction, expansion and corrosion
- Assist equipment strip down

This multi-purpose and metal-free material will not corrode or react with dissimilar metals. It is suitable for application to most metal substrates including chrome, molybdenum, vanadium, titanium, stainless steel and nimonics. The product does not contain any copper, silicon, lead compounds or Molybdenum Disulphide, and is specially formulated to have low chloride and sulphur content.

Bolts

Nuts

Process Equipment

Splines

### Applications for Belzona® 8211 (HP Anti-Seize) include:

- Nuts
- Bolts
- Couplings
- Sprockets
- Pulleys
- Keys
- Sleeves
- Splines
- Fulcrum pins
- Studs

Belzona® provides the solution to your repair and maintenance needs.

  
**BELZONA**<sup>®</sup>  
Repair • Protect • Improve

# Belzona® 8211 (HP Anti-Seize) is:

## Simple

- Easily applied
- No specialist tools required

## Safe

- Contains no metals
- Extremely low chloride and sulphur contents

## Versatile

- Excellent anti-seize properties across a wide temperature range up to 1100°C (2000°F)
- Easy dismantling and breakout even after long periods
- Can be applied to porous surfaces

## Effective

- Chemical resistant
- Resists vibration, contraction and expansion
- Excellent resistance to washout and corrosion
